

# QUICK START GUIDE

Support classroom instruction at home by accessing free math resources that are tailored to a student's individual state, grade, mathematical topic and Quantile measure. Resources include activities, online games, tutorial videos, and worksheets. [hub.lexile.com/math-at-home](http://hub.lexile.com/math-at-home)

## Enter Search Criteria

### STATE AND STUDENT INFORMATION

- Select the student's state and grade from the drop-down lists.
- Enter a Quantile student measure or select one of the three student ability level icons: Easy, Just Right, and Difficult.

After entry, the student's Quantile Range will appear to the right of the Student Quantile Measure box.

**Note:** The state, grade, and student ability are all required information. Refine search by adding a keyword or click the **Search** button to view results.

### ADDITIONAL KEYWORD

Add a keyword to refine a search. Keyword searches cannot exceed 80 characters in length and must be separated by spaces. Click the **Search** button to view results.

## View Your Results

NAME ^	STRAND ^	ADD TO RESOURCES
Buying Protein Bars and Magazines	Numerical Operations	+
Dana's House	Algebra and Algebraic Thinking	+
Finding a 10% increase	Numerical Operations	+
Kendall's Vase - Tax	Numerical Operations	+
Mrs. Glosser's Math Goodies: Meaning of Percent	Number Sense	+
Sale!	Algebra and Algebraic Thinking	+
Security Camera	Number Sense	+
Shirt Sale	Numerical Operations	+
Tax and Tip	Numerical Operations	+
That Quiz: Fractions Simplify	Number Sense	+
That Quiz: Arithmetic Rational	Numerical Operations	+
That Quiz: Arithmetic Rational	Algebra and Algebraic Thinking	+

### VIEW RESULTS

Search results appear below the search area. Web, Downloadable, and Book Periodical Print format resources are available. Each format of resources is organized alphabetically on a separate tab. Click the tab header of the resource format you want to view.

### SORT YOUR RESULTS

To sort your results by Name or Strand just click the dropdown arrow beside the desired term.

## View Quantile Resources
